

CRUISE Classic Total Black Marine Refrigerators

Isotherm CRUISE Refrigerators combine technological innovation with sophisticated yet practical design.

The CRUISE Classic Total Black refrigerators are available from 42 liters up to 226 liters and provide various customizable options.

Extremely robust yet practical in use

Cruise Isotherm refrigerators are true compressor refrigerators with performance comparable to the fridge in your home. Cruise fridges are designed for safe food temperature storage while you travel. The Cruise range is equipped with the easy fix rapid installation mounting system. A new-look contemporary design handle, both functional and practical, combines new inox internal details. The energy aspect has also been improved thanks to the optimization of the refrigeration system to reduce consumption, while maintaining high and constant operating performance.

Common Product Features:

- Freezer compartment (not on Drink versions)
- Equipped with interior LED light
- Installation flange (optional)
- One piece inner lining of high density food-grade plastic with rounded corners for easy cleaning
- Very low power consumption
- 12/24 V Secop compressor
- Door with a safety lock and magnetic rubber seal
- Right hand or left hand side opening is possible*
- Constructed of corrosion resistant materials

*Right or left swing must be stated when ordering.

(A) Depth decreases when remoting the compressor.

(B) Door thickness not included.

For further details please refer to the master data table.

CRUISE Classic White, Total Black

36, 40 Cubic, 42

CRUISE 36 White

The CR 36 is a built-in drawer fridge with unique design. Thanks to its compact size, the CR 36 can be installed where no other fridge might fit. The compressor can be removed up to 1.20 meters. It comes with a white door and mounting flange as standard.

* Depth only 556 mm when compressor is remote
35 mm door's thickness not included

SPECIFICATIONS	
Weight (Kg)	16
Gross volume (l)	36

ORDER NUMBER	DESCRIPTION
1036BA1G00000	FRIDGE CRUISE WHITE 36/V

CRUISE 40 Cubic White

The CR 40 Cubic has a fridge or freezer function. It can be installed as a front opening fridge or freezer (Cruise) or as a top-opening fridge or freezer (Built-In box). As a standard installation, the CR 40 Cubic is an ordinary front-opening fridge or freezer. By changing position, it can be top-opening cockpit mounted, fridge or freezer, like other products of the Isotherm Built-in line. The compressor can be removed up to 1 meter.

* Depth only 460 mm when compressor is remote
40 mm door's thickness not included

SPECIFICATIONS	
Weight (Kg)	18
Gross volume (l)	40

CRUISE Classic Total Black

86, 100, 130

CRUISE 86 Total Black

The Cruise 86 is a refrigeration solution of 86 liters gross volume, equipped with a 10 liters freezer compartment.

It stands out for the reliable BD Micro compressor technology, that contributes to its low weight of 22 kg and to a low energy consumption of 0,499kW/24h.

Its 'slim line design' makes possible applications in narrow spaces, with the easiness of an optional modular mounting flange.

*60 mm door's thickness not included
